# About Us

## FoodTrailerClub.eu — Your Partner on Wheels

At FoodTrailerClub.eu, everything revolves around our passion for design and craftsmanship. We design and build food trailers that help entrepreneurs bring their dreams onto the road. With over ten years of experience in production, engineering, and brand development, we combine solid craftsmanship with modern European design. Our trailers are not only visually appealing, but also practical, durable, and fully compliant with European standards.

## Our Mission

Every entrepreneur deserves the opportunity to own a stylish and professional food trailer. That's why we make quality accessible — through fair prices, European certification, and a truly personal service. We believe that every detail matters: from the chassis to the lighting, from the interior design to the exterior finish — each element contributes to the overall look and lasting impression of your trailer.

## The Team

### **Illya Rijnberg** – Co-Founder & Hospitality Specialist

From the South of France, Illya oversees our projects and customers with his long-standing experience in the hospitality industry. His goal: to create food trailers that are not only functional, but also aesthetically refined and built to inspire confidence and style.

### **Chen Yi** – Co-Founder & Operations Director

Based in Belgium, Yi leads the design phase and daily operations of FoodTrailerClub.eu.

With her eye for detail and technical precision, she ensures that every project is not only perfect on paper, but also shines in reality — both in craftsmanship and presentation.

*Bring your business onto the road — with style and trust.*

# Our Models

Two distinctive collections that combine design, functionality, and craftsmanship.

## Retro Series

Retro Series

The Retro food trailer features rounded shapes and a fully equipped interior, available in various sizes. Classic, charming, and versatile – ideal for coffee, pastries, or street food concepts.

## StreamOne Series

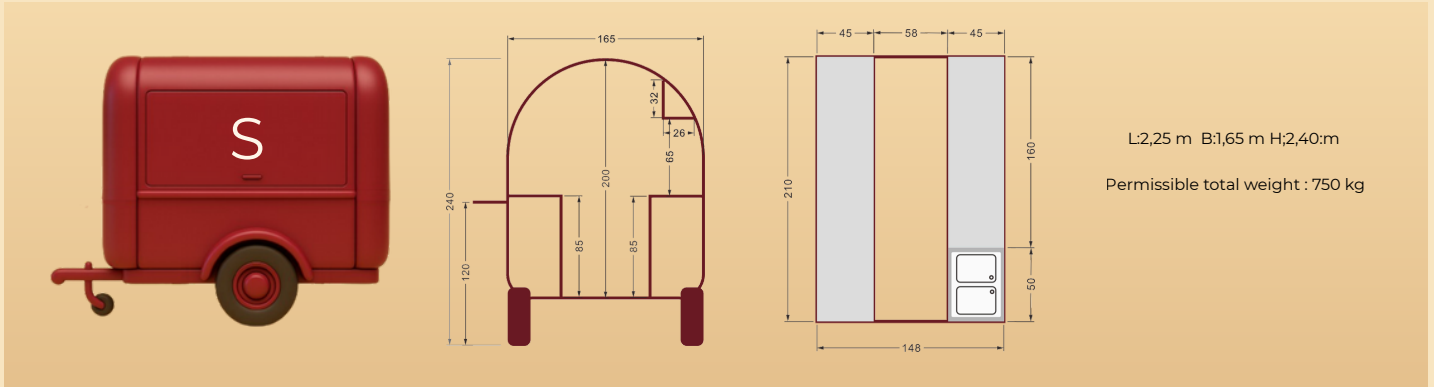

StreamOne Series

The modern food trailer with a sleek, streamlined Airstream-inspired design and high-quality finishing. Strong, elegant, and professional – perfect for bar concepts, catering, or exclusive events.

## Construction

- Sandwich structure with double walls and thermal insulation
  - Exterior made of fiberglass-reinforced polyester (GRP)
  - Insulating middle layer
  - Inner frame made of steel
- Painted exterior in any RAL color of your choice
- Interior floor: non-slip aluminum checker plate
- Corrosion-resistant and durable coating for long-lasting protection

## Installation & Equipment

- Electrical installation in accordance with European CE standards (230 V / 16 A, protected with circuit breakers)
- Splash-proof sockets (IP44) compliant with EU regulations
- Standard electrical equipment:
  - LED strip lighting above the work surface
  - Multiple 230 V outlets for small appliances
  - Recommended minimum load; heavy equipment optional
- Water system: 2 × 15-liter tanks (inlet / outlet) with pump
- Worktop: made entirely of stainless steel AISI 304 (rust-resistant)
- Interior lighting: warm white LED light
- Exterior lighting: LED contour illumination

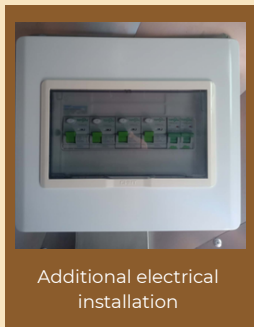

## Chassis (Trailer Frame)

- Fully hot-dip galvanized chassis (French manufacturing)
- Welded, galvanized steel construction
- Knott axles of high quality
- Wheels: 185R14C commercial-grade tires
- Jockey wheel: Ø 48 mm
- Handbrake with automatic reverse function
- Lighting system compliant with European standards
- 13-pin electrical connector
